None of the enclosed files have exhibits except New Haven file 100-11738. This file contains 20 exhibits entered into the file during the period 1/48 - 9/56. In accordance with cut-off date of January, 1960, as set forth in retel, copies of these exhibits are not being forwarded herewith.

It is noted that New Haven teletype dated 12/10/75 in captioned matter set forth an inventory of New Haven files which are pertinent to the current departmental review. Included in this inventory was New Haven file 100-18090 which was described as having two serials. The current review of this file revealed that serial 2 of New Haven file 100-18090 had been misfiled to that file and in fact was designated to New Haven file 100-18690. Accordingly, the enclosures for New Haven file 100-18090 contains only serial 1 of the file.

SAN JUAN DISREGARD BELOW INSTRUCTIONS SINCE YOUR FILE INVENTORY RESPONSE SHOWS YOUR OFFICE HAS NO SECURITY FILES RELATING TO KING.

ALL OTHER RECIPIENTS FURNISH FBIHQ ONE XEROX COPY OF EACH SERIAL CONTAINED IN THE ABOVE SPECIFIED FILES.

IT WILL BE NECESSARY ONLY TO XEROX THE FIRST PAGE OF ANY DOCUMENT IN YOUR FILES IF A COPY OF THAT DOCUMENT HAS BEEN SUBMITTED TO FBIHQ. THIS WILL INCLUDE DOCUMENTS ORIGINATING IN YOUR OFFICE AND THOSE RECEIVED FROM OTHER FIELD DIVISIONS. IT IS NOTED THAT THIS FIRST PAGE SHOULD CONTAIN THE FIELD OFFICE SERIAL IN ORDER THAT THE DEPARTMENT CAN MAKE A COMPLETE CHRONOLOGICAL ACCOUNTING OF EACH FIELD OFFICE SERIAL. ANY DOCUMENTS IN YOUR FILES, COPIES OF WHICH HAVE NOT BEEN SUBMITTED TO FBIHQ, MUST BE REPRODUCED IN THEIR ENTIRETY AND FORWARDED TO FBIHQ.

IF ANY FILE CONTAINS PHOTOGRAPHS, EXHIBITS, OR OTHER ITEMS WHICH CANNOT BE XEROXED, A BRIEF DESCRIPTION OF EACH ITEM AND LOCATION SHOULD BE SET FORTH IN COMMUNICATIONS TRANSMITTING DESIRED DOCUMENTS TO FBIHQ.

WITH RESPECT TO FILES CONCERNING CIRM AND CPUSA - NEGRO QUESTION, THE OPR TASK FORCE HAS AGREED TO A CUTOFF YEAR OF 1960. THEREFORE, NO SERIAL IN THESE FILES DATED PRIOR TO JANUARY 1960 NEED BE SUBMITTED. THIS CUTOFF DATE DOES NOT APPLY TO INVESTIGATIVE FILES CONCERNING KING, SCLC AND LEVISON.

IT IS REQUESTED THIS MATERIAL DESIRED BY THE TASK FORCE BE PROCESSED AND MAILED TO REACH FBIHQ BY OCTOBER 26, 1976. THE MATERIAL SHOULD BE SENT BY REGISTERED MAIL, ATTENTION DEPUTY ASSISTANT DIRECTOR JAMES O. INGRAM, GENERAL INVESTIGATIVE DIVISION.

SINCE THE DEPARTMENT TASK FORCE MUST SEE EVERY SERIAL IN OUR INVESTIGATION OF KING AT FBIHQ AND IN THE FIELD, IT IS ECONOMICALLY BENEFICIAL TO THE GOVERNMENT TO REPRODUCE AND MAIL THESE DOCUMENTS RATHER THAN HAVING TASK FORCE PERSONNEL TRAVEL TO ALL FIELD OFFICES. ABOVE MENTIONED OFFICES TO BE VISITED IN THE FUTURE BY THE TASK FORCE WILL BE FURNISHED TRAVEL INFORMATION AT A LATER DATE.

NOTE:

The Attorney General ordered review of our King investigation and appointed a special Task Force to conduct the review. Present review by OPR is a continuation of a partial review begun in December 1975 by Civil Rights Division of the Department. At that time all field offices submitted inventories of King related files.

Field office files to be reproduced in 42 field offices total approximately 460 volumes, although many volumes contain only a few serials.

The above procedure has been coordinated with Fred Folsom, OPR Task Force leader, and SA J.W. Awe, Records Management Division. Mr. Folsom requested field office files be made available as soon as possible and therefore a deadline of October 26, 1976 has been established.

PURPOSE: To advise of request by Departmental Task Force Representative reviewing captioned matter for identities of five former Bureau informants. Also to recommend non-compliance.

BACKGROUND: A Departmental Task Force of the Office of Professional Responsibility (OPR) is conducting a review of our investigation of King including investigation of his assassination. This review has been ordered by the Attorney General and its purpose is to resolve the following: (1) Was our investigation of King's assassination thorough and honest? (2) Is there evidence of our involvement in the assassination? (3) Has any new evidence come to the attention of the Department on the assassination? (4) Does the relationship between the Bureau and King call for criminal prosecutions, disciplinary proceedings, or other appropriate action?

By prior agreement and discussion between the Department and Deputy Assistant Director James O. Ingram, it has been agreed Task Force members will be allowed to review the assassination file, the security files and King related files on the Southern Christian Leadership Conference (SCLC) and influence of communists in racial matters. (See memorandum J.G. Deegan to Mr. Leavitt dated 5/21/76, copy attached.) It was agreed the Task Force was not to have access to informant files including our sensitive informant operation which obtained data on King's communist connections. This access allows the Task Force to review all raw files in our investigation of King including cover pages of the documents containing identities of confidential informants and potential informants who are not concealed by symbol numbers according to policy at that time. These cover pages also contain identities of individuals who have furnished data on an expressed or implied basis of confidentiality.

Memorandum J.G. Deegan to Mr. Gallagher
Re: Martin Luther King, Jr.
100-106670

REQUEST: On 9/13/76, OPR staff representative James Walker contacted SA P.E. Nugent. Walker indicated he was in possession of a Bureau memorandum to the Attorney General dated 3/4/76 captioned, "Newsday Article Concerning Invaders And Dr. Martin Luther King, Jr., Dated February 1, 1976," (copy attached) which indicates the Bureau had five informants of the Memphis Office which were providing information in 1968 concerning a black militant youth group known as the Invaders, which were involved in violent activities in the Memphis, Tennessee, area and specifically with violent activities which erupted on March 28, 1968, at which time King and his organization, the SCLC, were marching in support of a sanitation workers strike in Memphis. This memorandum was prepared as a result of the aforementioned article which alleged that because of the violence on this occasion King found it necessary to return to Memphis in April 1968, at which time he was killed. The article infers that inasmuch as there were FBI and police informants in the Invaders, the FBI and police were possibly responsible for King's death.

Despite the fact the memorandum in Walker's possession clearly outlines our informant coverage of the Invaders organization and indicates our informants were not known to be involved in any plans for or participation in violence, it is clear Walker's request for the identities of our informants (all of whom have been discontinued) is for the intended purpose of interviewing them to further explore their roles as sources concerning the Invaders. To furnish Walker with the identities of these informants would not only be a breach of our expressed agreement of confidentiality to each of them but would represent a radical departure from the degree of access afforded the Task Force as outlined in paragraph three of page one. We should therefore not comply with Walker's request. On 9/14/76 Mr. Walker was so advised by SA Nugent.

RECOMMENDATION: If approved and for the above reasons, that we maintain a hard position with respect to not disclosing the identities of these informants.

PURPOSE: To advise the degree of access to our files given the Department Task Force of the Office of Professional Responsibility (OPR) which is assigned to review our past investigations relating to Martin Luther King, Jr.

SYNOPSIS: Correspondence from the Department indicates that the current review of our King investigations by the OPR Task Force is a continuation of the "partial review" recently concluded by the Civil Rights Division of the Department under the direction of Assistant Attorney General J. Stanley Pottinger. Therefore, in absence of any information to the contrary received from the Department to date, personnel conducting the OPR review will have the same access to our files that was afforded the Pottinger review group. Under instructions from the Attorney General the Pottinger group was allowed to review raw files pertaining to King, his family, relatives, friends, associates and the Southern Christian Leadership Conference (SCLC) as well as files relating to COINTELPRO actions, electronic surveillance, all intelligence files and our complete file on investigation of the assassination of King. Based on discussions with OPR Counsel Michael E. Shaheen, the Task Force will review the assassination file, King and related security files, the SCLC file and our file on Stanley David Levison, whose association with King served as the basis to investigate King. Informant files will not be made available for review. It should be noted that current review by the OPR Task Force will include cover pages of communications containing identities of some Bureau confidential sources and informants who were not afforded symbol numbers at that time and individuals who expressed or implied confidentiality. This review commenced 5/10/76 in Room 4171 of the JEH Building with review of our files pertaining to King's assassination.

DETAILS: The Attorney General has instructed the Office of Professional Responsibility (OPR) of the Department to conduct a review of our past investigations relating to Martin Luther King, Jr. By letter dated 5/10/76, Michael E. Shaheen, Counsel of the OPR, defined the areas of concern in the review which will include perusal of all King related records in the Department, at FBIHQ and in Bureau field offices. The review must be completed "forthwith" and is to answer the following four questions: (1) Was the FBI's investigation of King's assassination thorough and honest? (2) Is there any evidence the FBI was involved in the assassination? (3) Is there any new evidence which has come to the attention of the Department concerning the assassination? (4) Does the relationship between the Bureau and King call for criminal prosecutions, disciplinary proceedings or other appropriate action?

Re: Martin Luther King, Jr.

~~CONFIDENTIAL~~

DETAILS CONTINUED:

Attached to the above mentioned letter was a copy of a letter to Shaheen from the Attorney General dated 4/26/76, outlining the previous review of the King matter by the Civil Rights Division and the basis on which the Attorney General decided to order a more complete review. In this letter the Attorney General indicated that the OPR review is a continuation of the "partial review" completed by the Civil Rights Division under direction of Assistant Attorney General J. Stanley Pottinger.

Since correspondence to date from the OPR has not dealt specifically with file access by the OPR Task Force, it is concluded that personnel conducting the OPR review will have the same access to our files that was authorized at the outset of the Pottinger review.

The material/files desired by the Civil Rights Division in its review were set forth in a letter from Pottinger to the Director dated 12/4/75. In this letter Pottinger indicated the Attorney General had instructed his Division to review all actions taken by the FBI against King. Requested were all materials concerning King that were provided to the Senate and House Select Committees on Intelligence; all COINTELPRO proposals, actions and results of actions; all requests, approvals and results, including tapes, transcripts and logs of electronic surveillances; all intelligence files; and our complete file on the investigation of the assassination of King. This letter further stated that the Civil Rights Division was interested "in reviewing every single item in your files which relates in any way to Dr. King, his family, friends, associates or SCLC." It is further noted that the Attorney General (letter dated 12/12/75) authorized Pottinger personal access to tapes, transcripts of tapes and other sensitive information concerning King and his case file.

DETAILS CONTINUED:

Based on discussions between Mr. Shaheen and Deputy Assistant Director James O. Ingram, it has been agreed the Task Force members will review the King assassination file, his security file and King related files on the SCLC, and influence of communists in racial matters. One King associate file the Task Force will want to see is the file on Stanley David Levison whose association with King served as the basis for instituting investigation of King. The Task Force will not have access to informant files including our sensitive informant operation which obtained information regarding King's communist connections.

It is noted that the above outlined access will allow the OPR to review all raw files in our investigation of King. Included will be cover pages of documents containing the identities of some confidential sources and potential informants who were not concealed by symbol numbers according to our policy at the time. Cover pages will also contain identities of individuals who have furnished information to us on an expressed or implied basis of confidentiality. This review commenced 5/10/76, in Room 4171 of the J&H Building under the direction of Task Force leader Fred G. Folsom. The Task Force began reviewing files relating to our investigation of King's assassination.

"**NEWSDAY**" ARTICLE CONCERNING
 INVADERS AND DR. MARTIN LUTHER
 KING, JR., DATED FEBRUARY 1, 1976.

DECLASSIFIED BY **SP-4 JMM**
 ON **2/4/83**
5355

An article appears in the February 1, 1976, issue of "Newsday" captioned "FBI Tied to King's Return to Memphis" written by Les Payne (copy attached).

This article alleges that the FBI and the Memphis, Tennessee, Police Department infiltrated the Invaders, a Memphis organization of young blacks. The Invaders allegedly were responsible for violence during a march in Memphis on March 28, 1968. The late Dr. Martin Luther King, Jr., was a participant in this march. It is alleged that because of the violence associated with this march Dr. King found it imperative to return to Memphis in April, 1968, at which time he was assassinated. It is inferred that inasmuch as there were FBI and police informants in the Invaders, the FBI and the police were thereby possibly responsible for Dr. King's assassination based on the possibility that the March 28, 1968, violence was part of a conspiracy to compel Dr. King to return to Memphis and his death. It is alleged that the FBI informants and a Memphis Police Department undercover officer infiltrated the Invaders and were actively responsible for the violence associated with the Invaders.

A review of files at FBI Headquarters and at the Memphis Field Office of the FBI has determined the following:

An umbrella black group was formed in Memphis in 1967 known primarily as the Black Organizing Project (BOP). One of its cells was the Invaders composed of young blacks. The Invaders were particularly militant. Leaders of the Invaders made inflammatory statements to the effect that it would be desirable for the city to burn.

The Attorney General

On February 12, 1968, Memphis sanitation workers began a strike. Many rallies and marches were held in their support and the strike became a black cause. Dr. King and his organization, the Southern Christian Leadership Conference, supported this strike. On March 28, 1968, a mass demonstration was held in Memphis with Dr. King as a participant. The leaders of the Invaders actively urged students to skip school on that date and to participate in the march.

Shortly after the beginning of this march, with Dr. King at the head, young blacks toward the rear began breaking windows and looting. Dr. King immediately left the scene. Widespread looting occurred, three young blacks were shot, one fatally, approximately 60 were injured, five policemen received significant injuries and there were approximately 300 arrests. The National Guard was mobilized. The presence of a large number of uncontrolled youths, combined with the agitation of BOP/Invaders leaders, was considered the primary cause of the violence.

This violence was particularly distressing to Dr. King inasmuch as it was felt by him and his associates that this incident might be construed as an indication he could no longer effectively lead mass demonstrations without violence.

The FBI did have informant coverage of the Invaders. There were five informants of the Memphis Office providing some degree of coverage of the Invaders or its leaders. One informant did become a member of the Invaders shortly after the March 28, 1968, violence. He was present during the demonstration and reported on the activities of the leaders of the Invaders before and during the demonstration. Another informant was well acquainted with the BOP/Invaders leaders. He was also present during the demonstration and reported thereon.

Our files do not indicate that any of the FBI informants were involved in planning, inciting or participating in the violence. None were in any level of policy or leadership in the BOP or the Invaders.

The Attorney General

The Memphis Police Department did have an undercover officer who had infiltrated the Invaders. He regularly reported on the activities of the Invaders. Information was exchanged between the Memphis Police Department and the FBI concerning the Invaders. There is no indication in our files that the Memphis police officer was involved in the planning, instigation or performance of violence. This man has been publicly disclosed and he is no longer a member of the Memphis Police Department.

This is being provided for your information.

FBI Tied To King's Return To Memphis

By Les Payne

© 1968 Newsday, Inc.

The FBI continues to turn up in unexplained circumstances surrounding the assassination of Martin Luther King.

Newsday has learned that FBI informants actively participated in the rioting in Memphis in 1968 which drew the Rev. Dr. King back to the city where he was killed.

Several FBI informants and at least one undercover agent for the Memphis police department were among the most active members of a young, violence-prone black group which openly opposed King's peaceful march supporting the city's sanitation workers.

According to some witnesses, the 100-member group called the Invaders led the March 28 riots which attempted to discredit King's efforts. Following the riot, in which one youth was killed, scores injured and 238 arrested, King vowed that he would return to prove that he still could lead a nonviolent demonstration.

"Dr. King would never have returned to Memphis if the violence had not happened," said the Rev. Jesse Jackson, who was one of King's aides in the Southern Christian Leadership Conference. "We never intended to get bogged down in Memphis."

The Invaders created major disruptions among local blacks supporting King, according to his aides. They criticized King for his nonviolent approach and urged local blacks to "burn, baby, burn." On April 4, the day King was killed, the groups met with him and his staff and threatened renewed violence unless they were given \$750,000 to redevelop their community. "They just got louder and louder," one aide who was at the meeting recalled. "We told them we didn't have access to that kind of money. We had to put them out."

Two sources said FBI agents and Memphis policemen admitted that they had "penetrated" the Invaders with several informers. One of the informants reportedly planned a large portion of Police and FBI officials were regularly provided with detailed information about the group's plans, activities and of the group's violent confrontations, meetings. "They knew everything that went on at Invaders' meetings," one source said. "It was as if they had a tape recorder there." The undercover Memphis policeman who joined the Invaders was at the scene of the violence on the day of the riot, several sources said. He is reportedly still a member of the Memphis force.

"Weston [not the real name of the undercover police agent] was very focal, very active," said a former leader of the Invaders who has talked to the policeman since he was discovered to be a member of the force. "He had a 7.62 Russian automatic rifle and he was armed every time we were armed. He was always suggesting actions that we should take; I never saw him physically attack anyone. But he was one of the most provocative members of the Invaders."

their names printed on the back, were organized, in late 1967. The youths were led mainly by college students at nearby Memphis State and LeMoyne Colleges. The Invaders denounced the nonviolent strategy, but offered protection for King and his staff members. "They, like other blacks in the country, were naturally frustrated by the slow pace of change," said the Rev. Hoseah Williams, Atlanta SCLC director. "We usually put them to work as parade marshals or security guards. They would never have hurt Dr. King. But those who infiltrated our groups, and we could never identify them, tried to exploit the youngsters' frustrations and neglect and turn them against us."

The FBI and Memphis police verified recently that they had informants among the Invaders in 1968. However, Henry Lux, who was the assistant police chief in Memphis, downplayed the group's role in the March 28 violence. Robert G. Jensen, who was the FBI agent in charge at the time, said, "I wouldn't be surprised if we had informers in the group. I'm sure there was adequate coverage of the Invaders."

It is reliably reported that the bureau and Memphis police shared intelligence about the Invaders.

In addition to being involved with the March 28 violence, the Memphis police undercover agent was providing security for King at the Lorraine Motel on the day he was assassinated, according to knowledgeable sources. The officer was a member of the Invaders' four-man security force that had agreed to provide protection for King while he was in Memphis.

There have been a series of disclosures recently concerning covert FBI activities against King. This has led to a Department of Justice investigation. The inquiry started after the Senate Intelligence Committee discovered an FBI memorandum, dated March 28, 1969, which detailed a plan to portray King as a hypocrite for staying at a white-owned motel—the Rivermont Holiday Inn—where he fled after the violence erupted. The Justice Department investigated to see if the memo had anything to do with King's return to the black-owned Lorraine Motel, where he was killed. They found no evidence linking the FBI to a plot to have King return to the Lorraine motel. However, Newsday has learned that the Invaders heatedly discussed King's stay at the white motel among themselves—some threatening violence over the issue.

A source at the J. Edgar Hoover Department of Justice told Newsday that the FBI memo was part of then FBI Director J. Edgar Hoover's Counter-Intelligence Program (Cointelpro) against "Black Nationalist-Hate Groups." The plan, outlined in an FBI Domestic Intelligence Division memo, was put into effect March 4, one month before King was killed. It was designed to "prevent the rise of a 'messiah' who could unify . . . the militant black nationalist movement." An overall goal of Hoover's plan was to "discredit" black leaders and their movement among both blacks and whites.

The violence at Memphis, perhaps more than anything else, began to erode King's credibility among moderate

blacks. King and his group were preparing to lead a nonviolent "Poor Peoples March" on Washington later that month. After the Memphis riots some national black leaders attacked King for the violence. On the day before he was killed, NAACP leader Roy Wilkins attacked King in a story printed in the Memphis Press-Scimitar. Wilkins said he doubted that King could keep the Washington march nonviolent: "If a maverick of the rear ranks of the march decides to throw a brick through a window, there's nothing Dr. King up front can do to stop it."

Jensen, who was in charge of the FBI in Memphis, said that the "ultimate decisions [for Cointelpro] were made in Washington D.C. and then they came to the field office." He denied that his office ever received the hotel memo. "I have no recollection of a memorandum dated March 28," he said. "If it was an intra-office memo I wouldn't have seen it anyway. It would have come to us as general instructions."

The Senate Intelligence Committee said that it uncovered no evidence that the FBI was implicated in King's murder or any cover-up. The committee chairman, Frank Church (D-Idaho), has reportedly called for a federal special prosecutor to investigate the assassination to resolve "many unanswered questions," including whether the bureau "vendetta" against King was related to his murder in Memphis.

Some of King's staff members over the years, have charged that the Invad-

ers were responsible for the riots which indirectly led, they say, to King's death in Memphis.

"The violence was definitely responsible for Martin's being in Memphis on April 4th," said Cong. Andrew Young (D-Ga.). "The Invaders themselves have taken responsibility for the violence. Now if the FBI was involved with the Invader, then it would bear looking into."

FBI officials deny any involvement in King's death. "The FBI did an excellent job in the investigation," Jensen said. "There are still a lot of theories, but no new evidence..."

However, former FBI agent Arthur Murtagh said that Hoover's relentless surveillance of King influenced the way individual agents approached the murder. For a time Murtagh directed the bureau's intelligence unit in Atlanta which tapped the civil rights leader's telephones and bugged his rooms. "The bureau under Hoover believed that King was a foreign Communist agent," he said. "He was the enemy. In this sort of atmosphere, the bureau's investigating King's murder was like the CIA investigating the assassination of a Russian premier."

Murtagh said that some agents were "ecstatic" after King was shot. "When King was shot, an agent I knew in Atlanta went on a 30-minute high. We were in the bureau's parking lot when the news came and this fellow kept saying, 'They got Zorro [King's code name] — they got Zorro. They finally got that son of a bitch.'"

Memorandum

FROM : J.G. Deegan *JGD*

SUBJECT: MARTIN LUTHER KING, JR.

1 - R.G. Held

(Attn: J.O. Ingram)

Purpose of this memorandum is to advise that a representative of the Department's Office of Professional Responsibility (OPR) Task Force, reviewing our investigation of King, has requested access to files of two former informants. Also to recommend that access be granted in view of fact both former informants' relationships with Bureau have been publicly disclosed.

On 9/20/76 OPR Task Force Representative Ms. Hope Byrne contacted SA Paul E. Nugent. Byrne has been involved in review of public news media accounts of the King matter. She stated a result of her review she is aware that two former Bureau informants, Karl Prussion and Mrs. Julia Brown, have furnished public testimony regarding their relationship with the Bureau and communist influences on King and the civil rights movement. Byrne requested therefore, that she be given access to review the files on Prussion and Brown.

It is noted the OPR review of the King matter extends a number of related files but does not include access to informant files. Prussion was an active Bureau informant furnishing information on Communist Party (CP) activities during the period 1949-58. Brown was an active informant furnishing information concerning similar matters from 1951-60. As indicated above, I have furnished public testimony concerning their Bureau informant experiences and information concerning CP activities as they relate to King and the civil rights movement.

Since both former informants have been publicly identified, General Investigative Division should interpose no objection to review of their respective files by Byrne.

RECOMMENDATION: If approved, that Byrne be allowed review of files of Prussion and Brown in Bureau space allocated for use by the OPR Task Force.

SYNOPSIS:

The Department's Task Force requested the above-mentioned briefing which was afforded Senator Frank Church and selected members of the Senate Select Committee (SSC) on 11/5/75. Task Force leader believed the briefing would provide valuable information bearing on our basis to investigate King. Briefing provided to five members of the Task Force on 9/2/76 by Bureau representative Mr. Leavitt stressed importance of security involving the informant operation and that, in accordance with personal agreement, the informants have been told that the briefing was to occur. Task Force leader Fred Folsom stated his group needed to know only general aspects of informant operations relating to association with King and Stanley David Levison, which served as the basis to investigate King. Folsom agreed to allow the FBI to review any Task Force written report bearing on contents of the briefing. Task Force was given overview of informant operation, significant historical development of the CPUSA, information from the informant regarding Levison and his association with King, and pertinent current aspects of the operation. Task Force personnel asked numerous questions regarding the informant operation, but their main interest, which prolonged the session, concerned our investigation of King, influence of Levison upon him and communist influence on King and the Civil Rights Movement.

DETAILS:

[REDACTED]

This Task Force, under direction of the OPR, has been ordered by the Attorney General to conduct a review of our investigation of King. Cop Was Removed Before King Death

—Continued from Page 7

Investigate the assassination to resolve "many unanswered questions," including whether a bureau "vendetta" against King was related to his murder. The Department of Justice is reviewing the FBI's file on King and will soon make recommendations to Attorney General Edward Levi.

Redditt and the officials identified by Newsday's sources as having been present at the April 4 meeting at which Redditt was told of the "contract" on his life have refused to discuss the meeting.

Holloman acknowledged the report of a threat. "I did receive a report that there was a threat on Officer Redditt's life. Where it came from, I can't say."

Asked about the April 4 meeting with Redditt in the presence of a man identified by Holloman as a U.S. Secret Service agent and other federal authorities, Holloman said haltingly, "... I don't recall. Even if I did I don't think I would say."

An official of the U.S. Secret Service said he checked the agency's records and found no indication that an agent had been sent to Memphis at that time.

At the police headquarters meeting, Holloman, according to sources, introduced Redditt to a "Secret Service agent down from Washington, D.C.," a man about six feet tall and weighing about 220 pounds. A Mississippi highway patrolman, Holloman said, had overheard someone threatening to go to Memphis to kill Redditt. The threat allegedly had been relayed to the U.S. Secret Service and the agent had flown down to deliver the message to the Memphis police and Redditt.

The man identified as the Secret Service agent verified Holloman's account, sources said. Also present, according to sources, were the Memphis police chief, an FBI liaison agent, two military intelligence officers, an official from the sheriff's office, a National Guard official and a representative of the Tennessee state highway patrol.

The Memphis police chief at the time, James C. MacDonald, now the chief administrator of the city's Juvenile Court, could not be reached by telephone despite numerous attempts. In reply to a letter requesting information about the Redditt affair, MacDonald wrote: "I have been out of law enforcement for seven years. I have no comment to make about your letter..."

A view from the hotel balcony on which King was standing when he was struck by a shot, apparently fired from circled window.

Redditt protested that he wanted to return to his post, the sources said, but he was ordered not to do so. Holloman told him he would be provided with 24-hour protection at a local hotel under an assumed name. Redditt refused the hotel offer because his mother-in-law, who was living in his home, was ill and could not be moved. Holloman insisted that a 24-hour police guard be posted at Redditt's home.

For the two days following the assassination, Redditt asked to return to work. Each request was denied.

On the third day, a Sunday, he returned to work without further explanation.

Redditt's assassination contingency plan, according to sources, called for the entire four-block area around King's motel to be sealed off by patrol cars if someone tried to kill King. All streets were to be closely watched in case of an assassination attempt. Redditt is known to believe that if his plan had been in effect it would have been impossible for a lone assassin, suspected of shooting from the flophouse across the street, to have escaped.

Cop Was Removed Before King Slaying

By Les Payne

Copyright 1968, Newsday Inc.

Hours before the Rev. Martin Luther King Jr. was killed in Memphis in 1968, the city's top law-enforcement official, in the presence of men he identified as federal agents, removed one of two detectives assigned to watch the civil rights leader from his post. Authorities said the removal was part of an emergency plan to protect the detective's life.

Ed Redditt, the detective who was removed from his post, had prepared a contingency plan to enable the police department to apprehend an assassin should an attempt be made on King's life while he was at the Lorraine Motel in Memphis. The plan, which was never implemented, involved the sealing off of a four-block area around the motel.

Police did not assign a replacement for Redditt. But they did leave the detective's partner on duty.

From interviews and published stories, Newsday has learned that Redditt and his partner, both members of the Memphis police intelligence unit, watched King and his staffers at the Lorraine through binoculars from the fire station across the street. The two-man unit earlier had provided security for King and his party, and they continued to keep the police department informed of their movements and their visitors. Redditt and his partner, W. B. Richmond, who are both black, had withdrawn from what would have been their normal position with the King party because their presence, following recent riots in Memphis, had angered young local blacks.

The police were particularly concerned about a violence-prone black group called the Invaders, who, though they were friendly with the nonviolent King and his associates, had led an outbreak of violence and looting a week earlier. Newsday recently disclosed that some of the leaders of the Invaders were FBI informants and had touched off the violence that was directly responsible for King's return to Memphis the day before his assassination.

On April 4, the day King was shot, four armed members of the Invaders, who had been providing se-

curity for King and his staff in the Lorraine Motel, were seen leaving the motel—for unexplained reasons—just before 6 PM, minutes before King was shot. Although King himself never agreed to have the Invaders stand guard, some of his aides had agreed to their presence. One of the Invaders standing guard was an undercover Memphis police detective who provided information for the police and the FBI.

After Redditt was removed from duty, he was told at a meeting in police headquarters that the U.S. Secret Service had learned of a "contract" on his life. Redditt protested, saying that he wanted to return to his post, but the city's then-public safety director, Frank Holloman, insisted on the officer's removal. En route home with a police guard Redditt heard on the car radio that King had been shot by an assassin.

Three days later, the round-the-clock guard watching Redditt was removed and he was allowed to return to work. The police department never offered any further explanation of the "contract" on his life. About a week before King was killed, sources said, FBI informers had told the Memphis Police Department that Redditt had shown some sympathy for King's cause by encouraging striking garbage workers—who were being supported by King's nonviolent marches—to stay away from work. Redditt's partner on the King surveillance team was considered more loyal to the department, sources said. The partner remained at his post and reportedly was looking at King through binoculars when the civil rights leader was shot.

The entire Redditt affair is another in a chain of curious circumstances surrounding King in the days and hours prior to his assassination.

Recent disclosures that the FBI conducted extensive surveillance of King have prompted several governmental inquiries. The Senate Intelligence Committee said its investigation uncovered no evidence that implicated the FBI in King's murder or a cover-up. However, the committee chairman, Frank Church (D-Idaho), has called for a federal special prosecutor to

House Votes 280-65 to Probe Kennedy, King Assassinations

By Mary Russell

Washington Post Staff Writer

The House created a select committee yesterday to investigate the assassinations of President John F. Kennedy and Dr. Martin Luther King Jr.

The 12-member committee, established on a 280-to-65 vote, will be headed by Rep. Thomas Downing (D-Va.) for the remainder of this Congress. Speaker Carl Albert (D-Okla.) said. Downing, however, is retiring, and Rep. Henry B. Gonzalez (D-Tex.), with Downing a prime sponsor of the committee, is expected to become chairman in the new session next January.

Downing said he would ask for \$250,000 to get the committee started and hire staff, but Rep. Frank Thompson (D-N.J.) chairman of the House Administration Committee which must authorize the funds, indicated yesterday he might be reluctant to approve that amount.

Because the select committee expires at the end of this year and will have to be re-established by the House next year, it should wait until then for funding, Thompson said.

Downing said the committee would not hold public hearings before the Nov. 2 elections, to avoid charges of capitalizing politically on the investigation, but he said it might hold some closed hearings "in order to preserve testimony."

Reasons for looking again at the 1963 Kennedy assassination, he said,

are revelations by the congressional intelligence committees that information about CIA attempts to kill Cuban Premier Fidel Castro was withheld from the Warren commission, the murder of two Mafia members enlisted by the CIA to help assassinate Castro, and the destruction of notes on Kennedy's autopsy and a note by assassin Lee Harvey Oswald to a member of the FBI.

The commission headed by Chief Justice Earl Warren investigated the assassination of Kennedy in Dallas and concluded that Oswald acted alone.

But Downing said yesterday, "I am convinced there was a conspiracy involved. I do not know the identity of the conspirators or their motives. That should be investigated in depth."

Downing promised "to engage in no witch-hunts" and "not blame those who may have made mistakes in the original investigation."

Rep. B. F. Sisk (D-Calif.) called the planned investigation a waste of taxpayers' money to satisfy "the melodramatic desire of the morbid to create an incident."

Though Downing and Gonzalez set out more than a year ago to create the committee, they were going nowhere until they received a push from members of the Congressional Black Caucus, who felt they had received "new information" in the 1968 killing of Martin Luther King Jr. that called for a new investigation.

D.C. Del. Walter Fauntroy and Rep. Yvonne Burke (D-Calif.) confirm that the information came from writer and TV producer Abby Mann, who working on a documentary on King's death, and from writer Mark Lane, one of the first to doubt the Warren Commission conclusions.

Reportedly the information has been known since 1968 but never investigated by the FBI.

It deals with the removal of King's black security chief from his post shortly before he was killed in Memphis, and the sudden transfer of two black firemen from the firehouse across the street from the motel where King was staying and was shot.

Edward Redditt, in charge of security for King, was ordered to go home about 4 p.m. on the day of King's death, because of a reported attack on the life of Redditt's family.

The order was attributed to Memphis Fire and Police Director Frank C. Holloman, who had worked for FBI for 25 years, part of the time in the office of the late Director J. Edgar Hoover, who had tapped King's phone and ordered surveillance of the rights leader.

Floyd Newsum, one of the two black firemen abruptly transferred from the fire station across from the motel, said he had attended a King rally in Memphis and, though he publicly opposed the transfer at the time, says he was never interviewed by the FBI.

PURPOSE:

To advise that more personnel have been added to the Task Force of the Department's Office of Professional Responsibility (OPR) and to request additional office space in the JEH Building for Task Force personnel to continue review of our King investigation.

SYNOPSIS:

The Attorney General has ordered a thorough review of our investigation of Martin Luther King, Jr. and his assassination. Appointed to do this review is a Task Force under supervision of the OPR of the Department. This group has been given total access to our King related files. This Task Force consisting of six persons, has been utilizing Room 4171 of JEH Building since May 1976. Three more analysts have been added to the Task Force and its leader has requested additional space. Since Room 4171 is inadequate to accommodate the entire Task Force, and since all Task Force members have Top Secret clearance and appropriate building passes are being processed for new Task Force members, it is felt this matter should be referred to the Space Management Unit of the Administrative Services Division in effort to obtain additional space.

RECOMMENDATION:

That the Space Management Unit of the Administrative Services Division attempt to locate office space for the additional three members of the OPR Task Force.

Memorandum J.G. Deegan to R.J. Gallagher
Re: Martin Luther King, Jr.

DETAILS:

The Attorney General has ordered a thorough review of our investigation of Martin Luther King, Jr. and his assassination. Appointed to conduct this review is a Task Force working under the direction of the OPR of the Department. This Task Force, consisting of six persons, began its review 5/10/76 utilizing Room 4171 of the JEH Building. This room is assigned to the Intelligence Division and was previously used by staff members of the Senate Select Committee.

Task Force leader Fred Folsom has advised that three analysts, Dana Boyd, Veronica Keith, and Renee Holmes, have been added to the Task Force. Folsom requested additional space since Room 4171 is inadequate to house all nine members of the Task Force.

All Task Force members, including the new additions, have been cleared for Top Secret information and security office of the Department and Bureau are handling appropriate building passes for the new Task Force members. Since Room 4171 is inadequate to accommodate all members of the Task Force, it is felt this matter should be referred to the Space Management Unit of the Administrative Services Division in effort to obtain additional office space needed.

ADDENDUM OF THE SPACE MANAGEMENT UNIT, ADMINISTRATIVE
SERVICES DIVISION, RLO:efl, 9/3/76

There is no unassigned space in the FBIHQ available for reallocation to the Task Force for the Department's Office of Professional Responsibility (OPR). Additionally, the recent organizational changes involving the transfer of responsibilities and personnel between the Intelligence and the General Investigative Divisions further aggravates an already distressing space situation for the Intelligence Division.

Conference Room #3075 (a joint use facility previously allocated to the Laboratory and Special Investigative Divisions) in early June, 1976 was made available for the temporary needs of the Intelligence Division. It is at present not fully utilized. The three additional analysts recently added to the OPR Task Force may be temporarily accommodated in Room #3075.

The Space Management Unit (SMU) recognizes it may not be desirable to comingle the activities of the OPR group with the functions being carried on by the Intelligence Division in Room #3075. No other viable alternative is apparent to the SMU unless consideration is given to making the Intelligence Division Conference Room available to the OPR group.

ADDENDUM OF THE GENERAL INVESTIGATIVE DIVISION PEN:cjb 9/16/76

GID, with concurrence of the Intelligence Division and Records Management Division, does not recommend the OPR Task Force's utilization of either the Intelligence Division's conference room or temporary use of Room 3075 which houses the Classification Review Unit of the Records Management Division. GID recommends this matter be held in abeyance pending finalization of planning to consolidate functions and personnel of the IS-1 and IS-2 Sections of GID. It is anticipated this action may result in additional space becoming available which can be allotted to OPR Task Force people. In this regard it is noted there appears to be no urgent need for added space at this time since Task Force personnel are presently utilizing space allotted to it (Room 4171) on a part-time basis and in groups of 2 or 3 individuals. It is recommended OPR Task Force leader Fred Folsom be advised of our recommendation and findings in this regard.

The Intelligence Division (INTD) concurs with the addendum of the General Investigative Division dated 9/16/76 (page 4). With respect to Room 3075 referred to as being utilized by INTD in the addendum of the Administrative Services Division (page 3), INTD is not now occupying this space. This room was originally assigned to INTD for use by the FOIA Document Classification Review Unit of a then IS-1 Section. That Unit continues to occupy this space but is now assigned to the Records Management Division. Consequently, INTD does not have control nor responsibility over Room 3075.

PURPOSE: To advise of the impact on FOIPA requests as the result of the proposed release of file material in captioned matter.

SYNOPSIS: The Attorney General has directed the release of certain information from the Martin Luther King file to the King estate and release is being coordinated through Office of Professional Responsibility, Department of Justice. Although not being handled as a Freedom of Information-Privacy Acts (FOIPA) release, a question was raised concerning the impact of release of the King file on third party requests for the same file. In discussion with Department of Justice officials, it was reiterated that since this is not an FOIA release, the FBI will continue to handle requests for this material in accordance with FOIPA procedures.

RECOMMENDATIONS:

1. Any third party requests of the information being released by the Attorney General to the King estate continue to be handled in accordance with FOIPA procedures.

2. Any inquiries concerning the Attorney General's release be referred to the Department of Justice for handling.

RE: RELEASE OF DOCUMENTS CONCERNING
MARTIN LUTHER KING TO THE KING ESTATE

DETAILS: You will recall the Attorney General has recently agreed to release to representatives of the Martin Luther King estate certain information from FBI files (that which has previously been furnished to the Church Committee) pertaining to Martin Luther King. This is not being treated as a Freedom of Information-Privacy Acts (FOIPA) matter; however, representatives from our Section recently participated in a discussion with Department of Justice officials along with representatives from Legal Counsel Division and Intelligence Division regarding the establishing of guidelines for processing file material. During this discussion the question was raised concerning the impact the release of material to the King estate would have upon other requesters seeking the Martin Luther King file. No conclusions were reached concerning this issue at this discussion, since the question was raised only for the purpose of insuring the Department was aware of all ramifications involved in the Attorney General's decision to release material to the King estate. We advised the Department that we had in fact received requests for the King file under FOIA from third parties, but that we declined disclosure on the basis of the Privacy exemption (FOIA).

On July 27, 1976, Steven Blackhurst, Office of Professional Responsibility, Department of Justice, contacted SA Thomas H. Bresson concerning captioned matter. Blackhurst advised he had been recently in contact with representatives of the King estate and the above subject matter was discussed with them. Blackhurst advised they stated it was their desire that the FBI resist disclosure of the King file to third parties. SA Bresson advised Blackhurst that we have considered the application of the Privacy exemption to FOIA records as one of the most troublesome aspects in implementing the FOIA, and pointed to the fact the Bureau has taken in the past a very strict interpretation in favor of protecting third persons' privacy. He was advised, however, that our stand on privacy has been overruled by the Deputy Attorney General on appeal in some instances and the Privacy issue, particularly with regard to deceased parties, is not well settled. He was advised that our policy would be to continue to handle all requests for the King file by third parties in accordance with established FOIPA procedures.

Mr. Blackhurst requested that his office be advised if the Bureau decides in the future to release the documents concerning Dr. King that are now under consideration for release to the King estate to third parties under FOIA.

Reference is made to your memorandum to the Attorney General captioned as above dated August 2, 1976. That memorandum enclosed a proposed memorandum of understanding which set forth the procedures and standards for providing materials previously given to the Senate Select Committee (SSC) to the estate of Dr. Martin Luther King, Jr. This is to confirm that the memorandum of understanding, with one exception, accurately reflects the Department's view of the standards and procedures by which FBI materials concerning Dr. King should be provided to the King estate.

The one exception is that derogatory information concerning Mr. Stanley David Levison and Mr. and Mrs. Harry Wachtel contained in the documents provided to the SSC should not be excised before transmittal to the King estate. That exception is made at the request of Mr. Levison and Mr. and Mrs. Wachtel. At our request their consents to our providing such materials to the King estate will be put in writing, a copy of which will be provided to the Bureau. This exception was decided upon after the proposed memorandum of understanding was drafted by the FBI which is why it was omitted from the memorandum.

We appreciate your expeditious treatment of the request of the King estate.

Reference is made to your letter of July 14, 1976, captioned "Request of the Estate of Dr. Martin Luther King, Jr., instructing that certain material concerning King previously furnished to the Senate Select Committee on Intelligence Activities (Church Committee) now be furnished to the King estate.

Because of the complicated and sensitive nature of this matter as well as the large volume of material involved, discussions have been held between representatives of the Department and this Bureau for the purpose of establishing necessary guidelines and resolving many obvious problems related to the implementation of these instructions. These are dealt with in a Memorandum of Understanding (MOU) which is submitted herewith for your concurrence. Pursuant to your request we are coordinating this matter with the office of Mr. Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination.

In addition to those matters covered in the MOU, it is believed that recognition should be taken of the following:

During a discussion of this matter on July 20, 1976, with Shaheen, he observed that this matter was not to be handled as a Freedom of Information Act or Privacy Act request and that the usual appeal procedures provided for by those Acts would not be available to the King estate.

On July 27, 1976, Mr. Steven Blackhurst, Assistant Special Counsel for Intelligence Coordination, advised a representative of this Bureau that although it was first believed that the King estate would provide some written consents from individuals whose names appear in the King documents (referred to in paragraph 1 of referenced letter), such consents are not now expected and we may address the matter of privacy in the manner indicated in the MOU.

As you are aware, we are presently engaged in other urgent matters relating to the King case. One concerns the two civil suits pending regarding the electronic surveillance of King (referred to in paragraph 2 of referenced letter). The other concerns the review of the King case and related matters by a Departmental task force under the direction of Mr. Fred G. Folsom, Jr. These endeavors are engaging most of our personnel who are familiar with and have the expertise to handle the latest request of the King estate. Nonetheless, you are assured that we will give the latest request a high priority for expeditious attention.

Enclosure

1 - The Deputy Attorney General (Enclosure)
Attention: Michael E. Shaheen, Jr.
Special Counsel for
Intelligence Coordination

NOTE:

Initial conference with Department on this matter, 7/20/76, in Shaheen's Office. Present for Department were Shaheen; his assistant, Blackhurst; and James Kieckhefer and Joseph Gross, members of Folsom's task force. Representing the Bureau were P. T. Blake, Legal Counsel Division; T. H. Bresson and D. L. Smith, FOI - Privacy Acts Section, Records Management Division; and for INTD, J. T. Aldhizer, III; P. E. Nugent and [REDACTED]

b7(c)

It was agreed at this meeting that a draft of an MOU encompassing results of discussions would be drawn up by the Bureau, informally reviewed by Shaheen's Office, and thereafter formalized through this correspondence. Such was done and after further discussions between Blackhurst and [REDACTED] the final version of the MOU was prepared and is now being presented to the Attorney General for his official concurrence. b

NOTE CONTINUED PAGE THREE

The Attorney General

NOTE CONTINUED:

At the 7/20/76 meeting Shaheen indicated that the reason the King estate was asking for materials from FBI files was that the interested parties desire to develop a history or chronology of the civil rights movement and since King was under such intensive investigation by the FBI, it is believed by them that material in our files will serve to fill out the historical record. Shaheen was asked if the Department had anything in writing from the King estate relating to this request and he stated it did not. When it was indicated that the Bureau might expect there would eventually be something in writing, Shaheen nodded assent. However, when [REDACTED] raised this matter with Blackhurst on 7/27/76, Blackhurst indicated that the Department does not have anything in writing from the King estate and the Department would "just as soon not" have a written request. The Department's reasoning is that it wants to leave the matter informal in order to avoid a law suit and that it would not be in the Department's interest to have the King estate formalize its request.

When asked the basis for the urgency of this matter, Blackhurst being reminded of the other King matter inquiries now tying up our personnel, Blackhurst said it was probably because the estate had originally initiated negotiations with the Department for King materials even prior to the Church Committee entering the picture.

It was also brought to Blackhurst's attention that according to a letter of 6/3/76, from Shaheen to Assistant Director Mintz, the King estate requested Department's permission for access to King materials. Blackhurst was asked whether the "access" request had been changed to one of "delivery" and he stated that it had.

General Observations

In order to expedite the considerable effort required to implement the Attorney General's instructions, and because of the involved processing necessary in making excisions and duplicating the voluminous documents concerned, we are suggesting certain flexibilities be made available to us in processing the material. For example, some administrative markings on correspondence "may" be excised, as distinguished from "will" be excised. Further, to expedite this material, we will for the most part be duplicating by the Xeroxing process documents which themselves are Xeroxes. As a consequence, some of the material for the King estate will not be ideally legible. The Department's cover communication to the King estate should point out this matter and invite the King estate to request clearer copies of any specific documents they desire which, it is anticipated, will be few. We would then locate in our substantive files the originals of these documents and reprocess them for excision. Material to be furnished to the King estate will include only that delivered to the Senate Select Committee on Intelligence Activities (SSC). It will not include material to which the SSC only had access for review purposes.

Identities of FBI Personnel

Names (as well as initials) of all FBI personnel below the rank of Section Chief to be excised. Section Chief level position chosen as line of demarcation as this is consistent with agreements between FBI/Justice Department and SSC for excisions in material made public by SSC, noting additionally that SSC has already made public identities of some higher ranking FBI personnel. In arriving at this agreement very serious recognition was taken of the danger inherent in publicizing names of FBI personnel who themselves, or their families, might thus become targets for physical or other abuse.

Privacy

Names of individuals other than King will not be excised but any derogatory information about them will be excised. If the mere presence of the name in the context of the document as a whole could be considered derogatory to that individual, the name will excised.

Identities of Confidential Informants, etc.

Names as well as information which could lead to the determination of names of the following types of individuals will be excised:

Confidential informants, confidential sources, and persons with whom the FBI had an implied or expressed understanding of confidentiality. Included for excision would be permanent informant and source symbol numbers. Information which will also be excised is that identifying, or which could identify, third agencies, including foreign intelligence agencies as well as all law enforcement agencies.

Third Agency Information

Information originating with third agencies will be excised.

Peripheral Matters

It is recognized that the SSC, in its study of the FBI's investigation of King, was furnished by the FBI numerous materials of a peripheral nature. Examples would include materials relating to the Southern Christian Leadership Conference, Sanitation Workers Strike (Memphis, Tennessee), Poor People's Campaign, 1964 Democratic Party National Convention (Atlantic City, New Jersey), and Stanley David Levison. Therefore, all materials furnished to the SSC in respect to its overall inquiries into the King matter, should be included for delivery to the King estate.

Administrative and Other Similar Data

"Notes on yellow" not to be excised. Handwritten comments by officials, such as Mr. Hoover, not to be excised. Administrative data containing substantive information, not to be excised. Other administrative markings which may be excised include such as Director's routing block, file numbers, Records Management Division markings, autographic initials of approving officials, and copy designations.

Ongoing Investigations

Information which could compromise an ongoing investigation will be excised.

Electronic Surveillances

Where it is clear from any document being furnished that information therein derives from an electronic surveillance, such information will be excised. In following this procedure, it will be necessary for the Department, in furnishing material to the King estate, to voice an appropriate disclaimer; that is, a statement that, despite our reasonable and good faith efforts, some of the information being furnished may have originated with electronic surveillances. Communications relating to electronic surveillances which are administrative in nature, as contrasted with those containing the product of such surveillances, will be furnished. The administrative-type communications would include such items as requests for authority for an electronic surveillance, instructions to install, and the like.

Classification

As only nonclassified information may be furnished to the King estate, classified documents will require review for the purpose of excising those portions on which the classification was based so that the remaining portions of the documents may be furnished the King estate.

Delivery of Material

Two exact duplicates of each document will be furnished to the Department which will supply the King estate one set and retain the other set for Department files. Delivery of material to the Department for forwarding to the King estate will be on a partial proffer basis. Recognizing that completion of the entire project will take some time, we are planning on several partial deliveries. The communication from the Department to the King estate covering documents being furnished will spell out the types of information excised and it will not be necessary for each excision on each document to carry the precise reason although such was done for the SSC. Consequently, such reasons for excisions appearing on the documents from which we will be working may now be excised on those copies to be furnished to the King estate on the basis that such information is not a part of the original document, but rather an administrative message from the FBI to the SSC.
